ELIJAH PRINCE

Proficient React Developer | Front-end Specialist

elijahprince73@gmail.com • https://www.linkedin.com/in/elijah-prince/ • https://github.com/ElijahPrince73 • Las Vega, Nevada

Summary

Highly skilled React Developer with over seven years of professional experience. Proven ability to develop user interface components with React.js and troubleshoot complex issues. Have made significant contributions in creating high-quality code with excellent uptime and optimized performance. Excited about implementing robust and innovative solutions.

Experience

Edward Jones
Remote

Senior React Developer
2023 - Present

Collaborated with financial advisers and transitioned from a legacy application to architecting and developing a new for them to use.

- Developed and implemented React micro frontend applications, demonstrating proficiency in building user interfaces.
- Provided guidance and mentorship to other developers on front-end technologies.
- Led teams in completing UX projects, showcasing leadership abilities in coordinating tasks, managing resources, and ensuring project completion.
- Worked directly on Micro front ends and integrated them into the main application.

Anheuser-Busch
Remote

Senior Software Engineer
2022 - 2022

Developed high quality interface components and ensured its robustness in collaboration with other team members.

- Spearheaded the development of a compact web application enabling users to provide feedback on both new and existing products within the Anheuser Busch portfolio.
- Designed and implemented Svelte web components to enhance the functionality and user experience of the survey application.
- Collaborated closely with the product and design teams to explore solutions that would optimize user interaction with the survey website.

1 V 1 Me
Remote

Senior Software Engineer
2022 - 2022

Contributed as a front-end developer for an esports and betting company, leveraging my expertise to enhance user experiences and interface functionality in the dynamic realm of online gaming and wagering.

- Lead in delivering web product features that aligned with the functionality of the iOS app and expanded upon it to web.
- Developed a user-friendly platform empowering support and marketing teams to manage users effectively within the system.
- Provided valuable input on design concepts suitable for implementation and users.
- Presented the latest completed features to team members and executives, fostering transparency and alignment across the board.
- Established comprehensive metrics and analytics for the client-facing website to gauge performance and user engagement effectively.

American Homes 4 Rent
Las Vegas, Nevada

Senior Software Engineer
2020 - 2022

Part of a dynamic team transitioning from a legacy application that allowed users to find rental homes to architecting and developing a modernized successor.

- Crafted and deployed React micro frontend applications tailored for enterprise-level systems.
- Engineered sophisticated software solutions at an enterprise scale to effectively address technological and business requirements.
- Evaluated the viability of proposed solutions while adeptly balancing project priorities and demands.
- Took charge of designing outstanding web interfaces to enrich the user experience across client-facing websites.
- Directed and supervised teams throughout the lifecycle of ongoing projects, ensuring efficient progress and delivery.

CHSI Technologies
Las Vegas, Nevad

Front End Developer
2018 - 2020

Developed insurance software solutions , contributing to the creation of innovative digital platforms tailored to the specific needs of the insurance industry.

- Spearheaded the development of B2B React insurance applications, catering to the unique needs of businesses in the financial technology sector.
- Innovated by crafting internal NPM modules to facilitate seamless sharing of React components and styling, utilizing React Storybook as a collaborative platform.
- Instituted comprehensive code reviews and guidelines within the company to ensure the integrity and consistency of React projects.
- Implemented upgrades to transition company legacy .NET software to modern web standards, incorporating React technology for enhanced performance and scalability.

Experience

MobileSoft, Inc
Front End Developer
Las Vegas, Nevada
2016 - 2018

Contributed to developing an E-commerce management application.

- Developed a user-friendly React front end for an E-Commerce dashboard, enhancing the platform's accessibility and usability.
- Played a pivotal role in crafting a robust Node.js and GraphQL server to support the functionality of the E-Commerce dashboard, contributing to its seamless operation.
- Collaborated closely with teams specializing in UI/UX, design, and quality assurance, fostering effective communication and alignment throughout the development process.
- Engaged in prototyping and wireframing activities, ensuring the alignment of design concepts with project requirements and user expectations.
- Implemented site architecture and optimization strategies that adapt to evolving industry practices, enhancing the platform's performance and user experience over time.
